

HARRIMAN'S PLANS TO BE MADE PUBLIC

Commerce Commission Will Disclose Nature of Railroad Deals.

LONG FIGHT IN THE COURTS

Report of Investigators Will Be Given Out Before Other Case Is Settled.

WASHINGTON, May 22.—It is not the intention of the Interstate Commerce Commission to await the result of the proceedings to be instituted against E. H. Harriman to compel him to answer certain inquiries that were put to him in the New York investigation before taking action on the general subject of the investigation.

In the opinion of members of the commission, it may be a year, or even more, before a final decision can be reached regarding the effort of the commission to compel Mr. Harriman to answer its questions. The proceedings to that end will be instituted in the courts of the Southern District of New York the latter part of this month or the first of next month. They will be for the purpose of obtaining an order from the court to compel Mr. Harriman to respond to the inquiries. It is expected that if the court should issue such an order, Mr. Harriman may carry the case to the Supreme Court of the United States. Should the lower court's decision be adverse to the commission, it is probable that it will carry the matter to the highest tribunal, inasmuch as the question involves a right of the commission which it believes it ought to exercise in an untrammelled way.

It is likely that the report of the commission on the Harriman case will be made up and published, for it is the intention of the commission to make it public long before a final determination of the proceedings to compel Mr. Harriman to answer the mooted questions is reached.

ELECT MR. FOSTER THEIR PRESIDENT

Southern Publishers Hold Business Meeting on Boat and Hear Addresses.

[Special to The Times-Dispatch.]
NOVEMBER, VA., May 22.—The Southern Publishers' Association, now in fifth annual convention, arrived here this evening from Richmond aboard the steamer Pocahontas. The members are quartered at the Lynnhaven Hotel. At the annual election of officers, which was held aboard the boat, Edgar M. Foster, of the Nashville Tennessean, was elected president of the association; J. P. Caldwell, of the Charlotte Observer, vice-president, and Victor H. Hanson, of the Montgomery Advertiser, was re-elected secretary and treasurer.

On the trip down the river, Medill McCormack, publisher and publisher of the Chicago Tribune, made an address on the technical side of newspaper publishing, and St. Elmo Messersmith, of Atlanta, spoke on the relations of the advertising agency and the newspaper.

Most of these addresses were highly entertaining. The association determined to place the position of secretary on a more business-like basis. The work of that officer will be broadened, and he will in the future be paid a salary. The methods of the American Newspaper Association will be followed to a certain extent in future. Mr. Hanson, by his work in the past, has shown himself to be highly fitted for the position of secretary and treasurer. He was re-elected after a spirited contest.

The Pocahontas, at Jamestown Island for a half hour on the way down the river to-day in order that the publishers might view the historic spot. The Jamestown Exposition will be visited by the publishers to-morrow. Another business meeting will be held there, after which the association will adjourn.

Among the prominent publishers from other States here are Col. J. C. Hemphill, of the Charleston News and Courier; F. P. Glass, retiring president of the Montgomery Advertiser; Curtis P. Jackson, of the Knoxville Sentinel; Rufus N. Rhodes, of the Birmingham News; and W. L. Halstead, of the Bristol Herald-Courier. In the party from Richmond are Leland Rankin, of the News-Leader; S. W. Allen, of the Times-Dispatch; R. M. Lynn, of the Journal; John D. Murrell, of the News Leader; Joseph St. George Bryan, of the Times-Dispatch; Jonathan Bryan, and John W. Stamper, the latter of the News Leader.

In the Land of Sun Protect the Skin

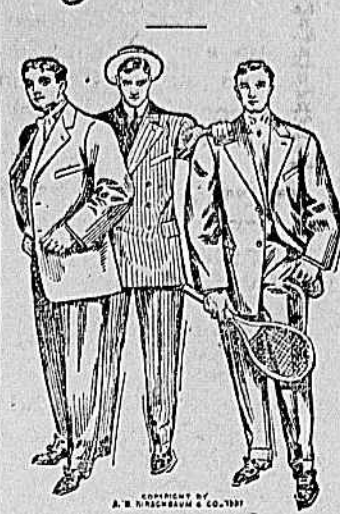

The sun's rays have a peculiar stimulating effect upon the skin, not only drawing the blood to the surface, producing sunburn and chloasma (deposits of pigment known as tan), but the sun's rays produce unnatural evaporation, and the tiny glands of the skin are unable to overtake this evaporation without assistance.

Pond's Extract Soap

In cream and lotion combined. The soap is a sweet, pure fat, itself a flesh food which cleans and dresses the skin, counteracting evaporation. It penetrates the sweat and oil ducts, soothing and cooling, and carrying the Pond's Extract—most famed of balms—which stimulates the glands to meet the atmospheric demands, keeping the skin delicate, soft, moist—protected. Under the burning sun's rays, wash several times a day with Pond's Extract Soap, lathering freely and rubbing it in well, rinse and dry gently. Its whiteness indicates its purity. From your druggist.

Armour & Company
Sole Licensees from Pond's Extract Co.

Have you a \$40 tailor-made suit? Stop in at our store and we'll show you a better suit for \$20; better cloth, tailoring, style and fit. Our clothes are made in the best equipped tailoring shops in the world. Other good ones, \$10. up to \$25.

ASBESTOS COMPANY CHANGES OFFICERS

Richmond Stockholders Interested in Action Taken in Wyoming.

[From Our Regular Correspondent.]
WASHINGTON, D. C., May 22.—The stockholders of the Wyoming Asbestos Mining and Manufacturing Company, a considerable number of whom reside in Richmond, although the company's home office is really in this city, made a complete change in officers at a meeting held in Casper, Wyo., some days ago. It was stated at the offices of the company here to-day that the following had been chosen: C. K. Bucknum, president; W. S. Kimball, first vice-president; C. P. Webb, second vice-president; A. J. Cunningham, treasurer; John B. Barnes, Jr., secretary, and T. C. Ferguson, superintendent of the mines.

Practically all the foregoing are Wyoming men, they having purchased recently a considerable portion of the stock, after having made careful inspection of the property. Mr. Bucknum, the president, is a member of the State Legislature, and one of the most extensive cattle-raisers in the State. The treasurer, Mr. Cunningham, is a banker of Casper, and a very wealthy man. Others of the officers are men of wealth and character, identified with the business interests of Casper and Wyoming. One of them is at the head of a mercantile establishment of Casper which does an annual business of over \$100,000.

Mr. J. L. Waring of this city, former president of the company, said to-day that he thought the action of the board in changing officers and moving the offices of the company to Wyoming was eminently wise. "The identification of local men with a local enterprise is always helpful," he said, "especially so if, as in this case, the men are of such high standing. The mines will be developed as rapidly as possible, contracts for hundreds of tons of asbestos having been made already. You needn't mind 'booming' the mines, as the board has decided not to sell another share of stock."

For the benefit of stockholders at a distance, it may be stated that the directors and officers of the company believe they have in this mine a bonanza richer than a gold mine.

BURNHAM QUILTS MUTUAL RESERVE

Indicted for Forgery, He Leaves Company on His Own Accord.

NEW YORK, May 22.—Frederick A. Burnham, indicted for grand larceny and forgery, tendered his resignation from the presidency of the mutual Reserve Life Insurance Society to-day. The resignation was accepted, and Archibald C. Haynes, formerly general agent for the Equitable Life As-

FREDERICK A. BURNHAM.

urance Society, was elected to succeed Mr. Burnham. At the same meeting George D. Eldridge tendered his resignation as vice-president, actuary and member of the board of directors. His resignation from the office of vice-president was accepted but he still remains actuary of the company and member of the board of directors.

EXAGGERATED, SAYS ROWLAND'S LAWYER

Declares That Report of Circumstantial Evidence Overdrawn.

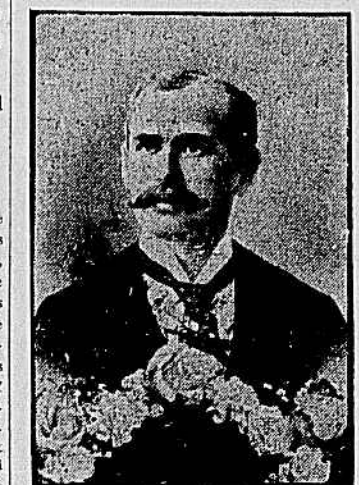

TESTS NOT CONCLUDED

Chemists Still Conducting Examination of Stomachs of Strange and Rowland Child.

[Special to The Times-Dispatch.]

RALEIGH, N. C., May 22.—Mr. Walter Watson, of counsel for Dr. D. S. Rowland and Mrs. Rowland, the latter charged with poisoning Engineer C. R. Strange, and for Dr. Rowland's son, returned this afternoon from Henderson, where he went to confer with Dr. and Mrs. Rowland and their Henderson counsel, T. T. Hicks. He declares that he finds the indications of Dr. Rowland's guilt in connection with the death of his little son very greatly exaggerated in the reports sent out from there, and says Dr. and Mrs. Rowland will seek and demand the fullest investigation, and will explode the whole network of circumstantial evidence.

No Poison Yet. A misunderstanding of a long-distance telephone message from Henderson to Raleigh caused the publication

ENGINEER C. R. STRANGE. His Widow Becomes Wife of Dr. Rowland a Few Weeks After His Death.

yesterday by a local paper and a number of papers at a distance that Vance county physicians had found poison in the stomach of the little son of Dr. Rowland, and that his stomach was being sent here for analysis to ascertain its character. While the fact that no attempt was made by the Vance physicians to discover poison, but merely to prepare the stomach for shipment to Raleigh chemists, that they might make the test as to the presence of poison. This is being done.

The analysis of the stomach of C. R. Strange and Dr. Rowland's little son in search of poisons that would have caused their death is progressing, but it will be several days before statement from the chemists can be procured. The bond of Mrs. Rowland is returnable June 3d, but the purpose is to have the preliminary hearing in the meantime, if the evidence as to the poisons is secured before the return day.

Wedding in Norfolk. [Special to The Times-Dispatch.]

NORFOLK, VA., May 22.—The marriage in Norfolk of Dr. Rowland, of Raleigh, N. C., and Mrs. Lillie Martha Strange, the widow of Engineer C. R. Strange, took place one week ago to-day. The couple appeared at the local clerk's office together last Wednesday morning. The woman was handsome and attracted much attention.

There was nothing irregular in their application for a license to wed and the document was issued to them in regular order. They gave their correct names and each said they had been married before.

Dr. Rowland said he was thirty-eight years old, and the woman said she was thirty-one years old. The former gave Vance county, N. C., as his native home and the woman said she was born in Chicago.

The couple were married by Rev. Vernon L. Anson, pastor of Grace Baptist Church. The executed license has been returned to the clerk's office.

Considered Good Woman.

Mrs. Rowland until recently Mrs. Strange, formerly lived in Portsmouth with Strange. They left Portsmouth last October, Strange, as a Seaboard Air Line Railway engineer, ran between Portsmouth and Raleigh. His earnings were in the neighborhood of \$200 a month. This it is said, he would take home to his wife.

Mrs. Strange was known to many people in Portsmouth with whom she was quite popular. It is stated that during her residence here she was very kind to people in distress, and was esteemed as a good woman.

ASSEMBLY AT PITTSBURG.

Dr. Thomas McFall, of Nova Scotia, Elected Moderator.

PITTSBURG, May 22.—Contrary to expectations there was no contest for moderator of the general Synod of the Reformed Presbyterian Church, which convened in Allegheny to-day. When the Synod opened there were three candidates for the office, but the Rev. Dr. J. M. Foster, of Boston, and Rev. S. G. Shaw, of Belle Center, O., withdrew, and Rev. Thomas McFall, of Nova Scotia, was chosen unanimously. The Synod will be in session until Tuesday evening, May 28th.

Desperate Coughs

Dangerous coughs. Extremely perilous coughs. Coughs that rasp and tear the throat and lungs. Coughs that shake the whole body. You need a regular medicine, a doctor's medicine, for such a cough. Ask your doctor about Ayer's Cherry Pectoral. We publish the formulae of all our preparations. J. C. Ayer & Co., Lowell, Mass.

PRESIDENT PUTS ON OFFICIAL SHACKLES

(Continued from First Page.)

mer, the New York banker, on his return to the metropolis, and Joseph Wilmer, who went as far as Itapian.

Shakes Hands With All.

At Charlottesville, which was reached at 4:20, the President good-naturedly consented to the request of the passengers, who had by this time learned that the President was on the train, to shake hands all around. In response to a request, he descended to the platform, and the line, augmented by some fifty bystanders, fled by him and shook hands with right good will. The President was greatly amused when he caught sight of a little girl carrying a "Teddy" bear in her arms. In the line was a prominent Western railroad official, who, when the President had returned to his car and resumed dictating, expressed his admiration for the Chief Magistrate, in spite of his belief that Roosevelt's attitude to the railroads was so harmful that their growth and prosperity would be checked. As the train left the station, the President suspended his dictating, and his hand from the door in a farewell to the crowd on the station platform. Before leaving Pine Knot the President paid a visit to the wild turkey blind on Green Mountain, where he enjoyed such fine sport last fall. He made the trip on the station platform. The blind was owned by a man named Foxmore. Archie, accompanied by two pickanninies, spent all of yesterday afternoon on the banks of Hardaway River. When he returned to the cabin at nightfall he had a good string of catfish.

The President at Home.

WASHINGTON, May 22.—The President and Mrs. Roosevelt, who have been enjoying a six-day's vacation at Pine Knot, the country home of Mrs. Roosevelt, arrived in this city at 8:45 o'clock to-night. Archie Roosevelt, Secretary to the President, and Latta and Service Officer Sloan were also in the party. The trip was made without any special incident.

There was a crowd waiting at the station to greet the President, including Captain Keys, the President's aide; Mr. and Mrs. Roosevelt, and Miss Belle Hagner, Mrs. Roosevelt's daughter. The President said that he had had a good time in old Virginia and was feeling fine. Three carriages were at the station to meet the party, and they were driven directly to the White House, where Mrs. Nicholas Longworth, the President's daughter, was waiting to meet them.

VIRGINIA BREVITIES

[Special to The Times-Dispatch.]

FABER, NELSON COUNTY, VA., May 22.—The work of Mt. Shiloh Church is being pushed forward. The roof is on the ground, and the work of putting it on will begin at once.

FABER, NELSON COUNTY.—Mr. Carroll, of this place, had a horse killed by jumping into a grave-yard falling on his head and breaking his neck.

CLUSTER SPRINGS.—The commencement exercises of Cluster Springs Academy will begin June 1st with the annual celebration of the Literary Society. The baccalaureate sermon will be preached by Rev. Theodorick Pryor, Epes, D. D., of Backstone, Va., and Rev. George Francis Bell, of Prince Edward county, will preach the sermon before the Young Men's Christian Association on Sunday, June 2d. State Senator A. F. Thomas, of Lynchburg, Va., will deliver the annual address on Monday, June 3d.

BUREKA MILLS.—Messrs. James B. Abbott, C. G. Snod, W. C. Chappell and Leachy Morton, who comprise the Eighteenth Senatorial District Committee, have issued a call for a Democratic primary to be held on Saturday, July 27th, for the purpose of nominating a candidate for the Senate from said district.

AMELIA C. H.—The Tobacco Association here is making some big sales of tobacco recently from several of its prizes. The prices received are association prices, set by its graders, and based upon cost and a reasonable profit. The outlook for the new crop is blue, indeed, there being great scarcity of plants season cold and unfavorable.

WYTHVILLE.—There was a heavy frost and some ice here last night. Many of the early vegetables were injured.

DELIBERATE WORK OF TRAIN-WRECKERS

Jerked Loose Rail Away as Southern Pacific Flyer Reached the Spot.

ONE DEAD; TWENTY-TWO HURT

Ten Thousand Dollars Reward Offered by Company for Arrest of Vandals.

LOS ANGELES, CAL., May 22.—Train No. 28, one of the Southern Pacific's coast line flyers, due at 9 o'clock last night was wrecked on a trestle at West Glendale, ten miles north of here, at 12:30 this morning. The wreck was the deliberate work of train wreckers. One man was killed and twenty-two persons injured, three probably fatally.

Under the first coach, which remained on the track, was found the loosened rail with the wires securely fastened through the bolt holes and the ends uniting in a single strand that led into the brush on the hillside. At the Southern Pacific general offices in this city notices were posted to-day offering \$10,000 reward for the arrest and conviction of the person or persons responsible for the wreck. The officials announced that they had no clue whatever.

The train, three hours late, was traveling at a rate of between thirty-five and forty miles an hour. The engine wheels were first to leave the rails, and the engine took to the ties, traveling nearly 100 yards before it was brought to a stop. The tender, the diner, two Pullmans, buffet, mail and baggage cars plunged over the edge of the trestle, falling a distance of sixteen feet.

Killed Stealing a Title. The man killed was T. J. McMahon, of Santa Barbara, a member of the Electrical Workers' Union. He is believed to have been stealing a ride on the baggage car, and had as his companion Frank Naylor, an eighteen-year-old boy from Santa Barbara, who was fatally injured.

Mrs. Frederick W. Schoff, of Philadelphia, president of the Mothers' Congress, which recently adjourned in this city, was a passenger on the wrecked train with Mrs. Edwin C. Grice, of Philadelphia, who also had been a delegate to the congress. Both were badly shaken up and were taken to the Lankersheim Hotel.

Two Pullmans and the observation car remained on the track. The fuel crushed and damaged several of the cars, and it was in the grinding crash that the passengers were hurt.

COREY SELLING STEEL STOCK

Unloading Common Because of Belief That He May Be Forced Out.

[Special to The Times-Dispatch.]
PITTSBURG, May 22.—The report is current in some local circles that W. E. Corey, president of the United States Steel Corporation, is selling his United States Steel stock in order to get out of the common stock of the company, of which he was understood to be a large holder. It is further stated that Mr. Corey's resignation as president of the Steel Corporation has been presented to the executive committee of the corporation. Mr. Corey's reason for selling his stock is stated to be his conviction in being practically ousted from the big corporation.

Rumor also has it that Charles M. Schwab has recently disposed of large holdings of his United States Steel Corporation common stock. The rumor is said to have been necessary to enable him to carry out his agreement with certain banking interests who have befriended him financially to lift or provide for certain underlying bonds of the Bethlehem Steel Company which were generally supposed to have been provided for some time ago, but which now said to be still continuing liens on the property, his losses in Tonopah precluding his meeting his obligations.

Church Hill Doctors to Meet.

The Church Hill Medical Society will hold its regular meeting at the Virginia Club this evening at 8:30 o'clock. The principal paper of the evening will be by Dr. J. Shelton Horsley, whose subject will be "Treatment of the Stump of the Appendix." General discussion of the subject will follow.

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry, Bloodroot, Golden Seal root, Stone root, and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherry bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It is a valuable auxiliary, but it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Dr. Finley Ellingwood, M. D., of DePaul Med. College, Chicago, says of glycerine: "In dyspepsia, it serves an excellent purpose. Holding a vast quantity of water in solution, it is one of the best manufactured products of the present time in the treatment of indigestion, flatulency, and other ailments, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach). It is a most efficient preservative, and it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures."

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet about the native medicinal glycerine, comparing this wonderful medicine. There is no alcohol in it.

WALTHAM WATCHES

The best pocket timepieces in the world are American watches, and the best American watches are WALTHAM watches. This is proved by the conclusive and permanent testimony of 15,000,000 Waltham watches. When a dealer offers a foreign watch in preference to a Waltham watch, it is to secure a greater profit for himself.
